

Please do everything you can to not let this happen. We have put up with telemarketers calling us and our children at all hours for too long. The No Call list was the best thing to ever happen to our state and the many others that have passed it. If the FCC allows this to happen, then what was all that work and effort for to pass the No Call law in the first place? We will be right back where we started from. KEEP THE NO CALL LIST WORKING FOR THE PEOPLE AND KEEP IT AS IT IS!
